

and staff arrived here last night. Nothing but a construction train has yet arrived on the Manassas Gap Railroad, although one is hourly looked for.

New York, Nov. 7.

Capt. Vickers, of the bark Mary Baker, of Yarmouth, N. S., reports on 30th October, in latitude 41, longitude 69 30, he saw two ships, from the description of which he believes one to have been the Alabama, and that she was chasing and rapidly gaining on the other, an American vessel. They were eighteen or twenty miles distant.

The final report shows that the rebels left 36 on the field, and their wounded must have been numerous. Our loss was 5 killed and 10 wounded.

Gen. Pleasanton today reports that General Mason occupied Chester with his command. The town of Warrenton was occupied by the troops at 3 P. M., taking five prisoners belonging to the 3d Virginia cavalry and two infantry soldiers who state that their regiments came up the valley. Gen. Bayard had a conference today on the Warrenton road with one man and wounded two, and taking 20 prisoners without any loss on his part.

The removal of the rebels from the country has excited the excitement of the people from the Government and local leaders.

Forney says that he expects to meet here next week and discuss the situation. President Lincoln's message will become important in the administration of the war.
